

# Mitchell Freeway Extension Hester Avenue to Romeo Road

## New access to the Nowergup Rail Depot

The Mitchell Freeway Extension project is progressing well. The new southbound and northbound freeway lanes on either side of the rail depot are nearing completion, as are the upgrades to the Hester Avenue interchange and Nowergup Rail Depot access.

The new access to the Nowergup Rail Depot (marked in green below) will open in February 2023. This purpose-built roundabout on Hester Avenue will improve entry and exit from the depot and create easy access to the freeway via Hester Avenue.

Depot workers travelling from Wanneroo Road will no longer have to loop around the Hester Avenue interchange to access the Depot, as the new roundabout will give them direct access. This will improve safety, congestion and connectivity. On road signage and email communications will support the opening.

The Hester Avenue Principal Shared Path will fully reopen in March 2023, providing pedestrian and cycling access to the depot.
