

BUNBURY OUTER RING ROAD

Construction update

September 2024

This update contains information regarding the current and future works happening across the Bunbury Outer Ring Road (BORR) project. Information within this update is current as of September 2024 and is subject to change. For the most recent updates, visit the Main Roads BORR website or the Bunbury Outer Ring Road Community Facebook Group.

With the weather warming up in September, our pavement teams have hit the ground running, with a focus on basecourse construction, sealing and asphaltting across the southern section.

Yalinda Drive and Cokelup Intersection Update

Construction of the Yalinda Drive and Cokelup Road intersection is now underway. These works are expected to be completed by late-October. To enable access for school buses through the narrow work area, traffic signals were implemented later than expected. Works are progressing and we thank you for your patience while we complete these works.

Out-of-hours works

Until December 2024, there will be an occasional need for out-of-hours works to occur on Sundays between 7am – 7pm. Works will only occur in targeted locations, when required to achieve quality requirements. Noisier activities will be scheduled after 9am.

If out-of-hour works are required near your property, we will contact you prior to inform you. All works will be in accordance with our noise management plan which is approved by the Shire of Capel.

Should you have any concerns during out-of-hours work, please contact the project, by calling the Main Roads Customer Information Centre on 138 138 or emailing enquiries@mainroads.wa.gov.au.

Construction update

Lillydale Road between BORR and Bussell Highway

In this area, works include:

- Basecourse material being spread along the road.
- Spreading mulch on batters and landscaping.
- Installation of fauna rope structures.
- Road surfacing works at the Bussell Highway and Lillydale Road roundabout.
- Building roadside kerbs, medians, and footpaths.
- Installation of safety barriers.
- Utility and road drainage works, building concrete foundations and installing light poles at Bussell Highway and Lillydale Road.

Lillydale Road and Jules Road Roundabout

BORR from Jilley Road to Bussell Hwy Interchange

In this area, works include:

- Basecourse material being mixed, conditioned and compacted along the alignment.
- Trimming of basecourse surfaces along the alignment.
- Setting drainage lids to connect pit and pipe networks along the alignment.
- Installing panels and backfilling behind retaining walls.
- Continuing installation and painting of post and panel noise and screen walls.
- Installation of limestone retaining walls.
- Installing concrete barriers on the BORR alignment.

Noise walls and main alignment works, Gelorup

BORR and Bussell Highway from Yalinda Drive Bridge to Grevillea Road

In this area, works include:

- Basecourse material being mixed, conditioned and compacted along the alignment.
- Trimming of basecourse surfaces along the alignment.
- Completing earthworks for the down ramp from the Y-Interchange.
- Spreading mulch and topsoil to batters along the alignment.
- Removing stockpiled sand from site.
- Installing concrete barriers on the BORR alignment under the interchange.
- Reconstructing pavement on Lakes Road.
- Continuing works to complete the Calinup Road and Grevillea Road tie-in.

BORR and Bussell Highway Southbound

Further Information

There are a range of roadworks currently underway across the network, please remember to check out the [travel map](#) or [subscribe](#) for important updates.
