

# Halls Creek to Kununurra Bridges Project

## Works recommencing on the Halls Creek to Kununurra Bridges Project from mid March 2024

Works to complete the Tickalara Creek and Frog Hollow Creek replacement bridges are due to recommence on 18 March 2024.

Final bridgeworks include construction of approach slabs, embankment earthworks and road safety barrier installations, with completion of both bridges expected by mid-June 2024.

Construction of the new bridge at Arthur Creek will also commence this year, with clearing and site establishment works due to start by early April. A side track will be opened to allow earthworks to commence and demolition of the old bridge structure.

### Key dates:

- Tickalara Creek and Frog Hollow Creek bridge works recommencing **18 March 2024**
- Arthur Creek bridge works commencing **1 April 2024**
- Tickalara Creek and Frog Hollow Creek bridges to be completed by mid-June 2024
- Arthur Creek bridge completion mid-October 2024.

### Traffic management

Stop/go traffic management and speed reductions will be in place at the Tickalara Creek and Frog Hollow Creek site locations as works are completed over the coming months. Please allow additional time for your journey as you travel through these sites.

A side track will be in operation at Arthur Creek from early April.
