

# Leach Highway Welshpool Road Interchange

## How works may affect you

### What is happening?

Early works, including earthworks, are underway as construction activities commence. We are also conducting compaction trials to optimise our use of equipment adjacent to properties.

### How will you be affected?

You may notice additional heavy vehicle traffic while we transport fill associated with the new bridge.

There will also be traffic changes including speed reductions, lane closures on Welshpool Road and lane narrowing on Leach Highway.

### After hours work scheduled for June

Out of hours activities will occur on Leach Highway and Welshpool Road, between Orrong Road and Albany Highway, including:

- Kerb removal
- New road line markings
- Temporary road barrier installation and pavement works
- Vegetation clearing

- Service relocations

Night works involve small crews with vehicles, mostly on the road verge. While impacts should be minimal, the following may be experienced:

- Out of hours works between 7pm and 7am
- Traffic management, when required

### What mitigation measures will be in place?

Comprehensive management plans are in place for dust, noise, and vibration monitoring.

### How do I find out more about the project?

To stay up to date with the project, you can subscribe to email notifications via our project webpage at [www.mainroads.wa.gov.au/Leach-hwy-welshpool-rd](http://www.mainroads.wa.gov.au/Leach-hwy-welshpool-rd).

Advanced notifications of traffic changes and ongoing information about potential impacts and project status will be shared with subscribers.

If you have any questions or concerns, please email [enquiries@mainroads.wa.gov.au](mailto:enquiries@mainroads.wa.gov.au) or call 138 138. For more information, visit [www.mainroads.wa.gov.au](http://www.mainroads.wa.gov.au).
