

Mundijong Freight Rail Realignment Planning

What next?

- Once a preferred option is determined, it will be presented to the community for final feedback in early 2022.
- The Minister for Transport will then consider the option.
- Once endorsed, a planning control area (PCA) will be established to protect the land, while a future railway reserve is progressed for inclusion in the Metropolitan Region Scheme (MRS).
- Further project development would then be undertaken to develop a concept design.

Land acquisition

- If the Government requires land for the rail corridor, the process usually commences when construction funding is confirmed
- To purchase the land (known as acquiring), the Government follows strict guidelines under the *Land Administration Act*
- More detail is available on the Department of Planning, Lands and Heritage website
