

Rail Corridor Options

What are the options?

- All of the options are located west of Mundijong in the area bounded by Bishop Road in Mundijong to the north and Lowlands Road in Serpentine to the south.
- The four options include:
 - Option 0 (brown)** – The original location identified in planning by the Department of Transport.
 - Options 1 and 2 (green and blue)** – An option identified following detailed planning work in 2020 and circulated to the community and stakeholders for feedback.
 - Option 3 (purple)** – An additional option identified in 2021 as a result of further site assessments.

How will they be assessed?

- A comprehensive, multi-criteria analysis process will be used. Each option will be rated against criteria.
- All community feedback will be considered alongside the criteria to which it relates.
