

Project Lifecycle

APRIL 2025

Australian Government

mainroads
WESTERN AUSTRALIA

BUILDING AUSTRALIA

The lifecycle of any project within Main Roads WA goes through a five-stage process. The Orrong Connect project is currently in the Planning Phase.

Early Strategic Planning Phase

Identify project need and strategic priorities

1

Complete

Planning Phase

Investigate and select a preferred option

2

Project Development Phase

Develop a project plan

3

Construction Phase

Construct preferred option (only once funding has been committed)

4

Operational Phase

5

Safer, smoother, connected journeys

*A better way forward,
for everyone*

Current Stage

- ✓ Undertake preliminary investigations (transport, environmental, geotechnical, sustainability etc)
- ✓ Undertake early community and stakeholder engagement
- ✓ Convene community deliberative panel to investigate and recommend design options
- Final evaluation and selection of preferred option
- Community and stakeholder engagement
- Environmental, heritage and engineering investigations
- Detailed planning and design
- Undertake cost estimates
- Submit business case
