

Project Lifecycle

September 2024

Australian Government

mainroads
WESTERN AUSTRALIA

BUILDING AUSTRALIA

The lifecycle of any project within Main Roads goes through a five-stage process. The Orrong Connect project is currently in the Planning & Development Phase.

Early Strategic Planning Phase

Identify project need and strategic priorities

1

Complete - Perth and Peel @3.5M

Planning Phase

Select a preferred option

2

Project Development Phase

Develop a project plan

3

Construction Phase

Construct preferred option (only once funding has been committed)

4

Operation Phase

5

Safer, Smoother, Connected journeys.

*A better way forward,
for everyone.*

Current Stage: Planning and Development

- Undertake background investigations [transport, environmental, geotechnical, sustainability etc]
- Undertake community and stakeholder engagement
- Hold Deliberative Panel to explore and recommend options
- Select a preferred option
- Final evaluation and selection of preferred option
- Environmental, heritage and engineering investigations
- Detailed planning and design
- Undertake cost estimates
- Business Case
