

# Swan River Crossings Fremantle Traffic Bridge

## Upgrading Pedestrian and Cyclist Crossings

The new Fremantle Traffic Bridge will become Australia's only extradosed bridge, creating a striking gateway to Walyalup (Fremantle).

In response to recent community feedback, the State Government has announced that pedestrian and cyclist crossings at three major intersections on Stirling Highway will be upgraded with signals (countdown timers), improving access and safety.

These upgrades will help people consider alternative modes of travel during the bridge closure, which is expected to be in place for up to 12 months.

### Stirling Highway and Marmion Street Intersection

New timers at all four corners, benefiting locals and school children attending East Fremantle Primary and John Curtin College of the Arts.

Figure 1: Pedestrian Countdown Timers at Marmion Street and Stirling Highway.

## Stirling Highway and Tydeman Road Intersection

In the Christmas holidays, new timers will be installed (diagram below).

## Stirling Highway and Canning Highway Intersection

In January 2026, new timers will be installed at all four corners and slip lanes; median islands will be widened to provide more space for users (diagram below).
