1. Use Bump Pavement Marking when sight distance to the landing is less than 30m, only to be used on downhill approach. See 20193-0079 for bump symbol.

2. All pavement markings to be long life thermoplastic or cold applied plastic with glass beads for retroreflectivity. Long life thermoplastic will be in accordance with AASHTO M357 specification. Two part cold applied plastic will be as per the principal's method specification for the installation of 40km/h Pavement Markings for School Zones document 2017/0370 with 3.5mm size fused alumina or calcined bauxite aggregate for skid resistance.
