1. Dimensions: Measurements in mm.
2. Colours: As shown.
3. All pavement markings to be long life thermoplastic or cold applied plastic with glass beads for retroreflectivity. Long life thermoplastic will be in accordance with MRWA Specification 604. If preformed thermoplastic is used the symbols and letters are routed out unit layered and inserted into the regulatory pavement marking. Two part cold applied plastic will be as per the principal's method specification for the installation of 400m² pavement markings for school zones (Document D00073001) with 1.2mm size fused alumina or calcined bauxite aggregate for skid resistance.
