1. Dimensions measurements in mm.

2. Colours: as shown.

3. All pavement markings to be long life thermoplastic or cold applied plastic with glass beads for retroreflectivity. Long life thermoplastic will be in accordance with MRWA specification 164. If preformed thermoplastic is used, the symbols and letters are routed out (not layered) and inserted into the warning pavement marking.

Two part cold applied plastic will be as per the principal's method specification for the installation of 40km/h pavement markings for school zones (document #007/6070R) with 1.0mm size fused alumina or calcined bauxite aggregate for skid resistance.
