Our Ref: D19#141378

Dear Sir/Madam

ROADSIDE SIGNAGE IN MAIN ROADS’ ROAD RESERVES FOR ELECTION ADVERTISEMENTS

In the lead up to the Federal election, Main Roads is anticipating that there may be requests from candidates to place advertising material within Main Roads’ road reserves.

Whilst candidates may place advertising in Main Roads’ road reserves once the election is declared, (subject to the enclosed appendix) it should be noted that any claim arising from the placement and/or distraction associated with the advertising is the responsibility of the Candidate. In addition it should be noted that public indemnity insurance is also the responsibility of the Candidate.

Any sign or device that fails to comply with the attached conditions will be removed without notice to the applicant. Assessment of compliance with the above conditions is at the sole discretion of Main Roads.

If you require any further information please contact me on 9323 4676 or via email at jerko.ostoic@mainroads.wa.gov.au.

Yours sincerely

ELECTION SIGN INSTALLATION CONDITIONS

To avoid any confusion as to what is permitted, the following information is provided:

- All signs must be less than 4.5m².
- All signs are to be freestanding and not attached to road structures such as traffic sign supports, overhead bridges, bus shelters, lighting/power poles, trees etc. Star pickets shall not be used to support the signs.
- Signs are not to be placed where they will obscure the vision of drivers.
- Signs are not to be placed within the following locations;
  - Kwinana Freeway (includes Interchanges)
  - Mitchell Freeway (includes Interchanges)
  - Tonkin Highway
  - Roe Highway
  - Great Eastern Highway Bypass
  - Graham Farmer Freeway (includes Interchanges)
  - Reid Highway
  - Garratt Road Bridge
  - Shelley Bridge
  - Stirling Bridge
  - Fremantle Traffic Bridge
  - Canning Bridge
  - Matagarup Bridge
  - Stephenson Highway
  - Kenwick Link
  - Great Eastern Highway (Causeway to the pedestrian overpass at Rutland Ave)
  - Albany Highway (Causeway precinct to Colombo St)
- Signs must be constructed and placed so they are not a risk or obstruction to vehicles, including users of Shared Paths or pedestrians;
- Signs are not placed within 50 metres of an intersection, traffic sign, traffic island, roundabouts or within the median.
- They are not placed within 100 metres of a roadwork site.
- Trailer mounted Variable Message Signs (VMS) shall not be used.
- Signs are installed with the leading edge of sign no closer than 3.5 metres from the trafficcable path of vehicles.
- Signs shall be designed and constructed in such a manner that the composite construction of the sign and supports are frangible and will not cause injury or major damage if struck by a vehicle.
- Each sign is designed to display a whole message only. Signs which display segments of a whole message which are to be read sequentially in order to comprehend the whole message, are not permitted.
- Signs are not illuminated and do not incorporate reflective or fluorescent materials.
- All signage must be securely installed.
- The owner of the advertising device located within a State road reserve shall, in respect to that device, effect and maintain a public liability insurance policy with a reputable insurer in the amount of $5,000,000.00 (Five million dollars).
- Vegetation shall not be trimmed or removed to locate sign or to improve visibility to any sign.
- All roadside signage for electoral advertisements must be removed no later than 10 days following the election outcome.
