

Main Roads Western Australia Heavy Vehicle Services Accreditation Variation Form

Change of Anniversary Date

The following applies if an operator requests a change to the accreditation anniversary date:

- If the operator requests the date be brought forward (i.e. from June XX to May XX) then the date can be changed without an audit (the next audit will be due in May XX). This change would result in the operator's accreditation not extending for the entire 36 month period; and
- If the date is extended past the existing anniversary date (i.e. June XX to September XX) then the operator must complete a re-entry audit and payment of the \$225 application fee is required. No refund for the original accreditation period will be issued.

Please accept this formal notification that I wish to change the accreditation anniversary date.

Current Anniversary Date: _____/_____/_____

Proposed Anniversary Date: _____/_____/_____
