

NOTES:

1. Minimum 2 Pilot vehicles required to facilitate contra flow movement.
2. UHF radio communication shall be maintained between Pilot vehicles and Oversize vehicles at all times.
3. Oversize vehicle(s) shall stop in the parking bay approx. 3km south of the townsite and shall not proceed until it is confirmed the contra flow route is clear of parked vehicles.
4. Once confirmation has been received the Oversize vehicle(s) shall proceed to the townsite, stopping at the position shown prior to Withnell Street and wait while pilots take up their positions.
5. Pilot vehicles 1 & 2 and the MRWA Traffic Warden shall move to the locations shown and stop all traffic to allow the Oversize vehicle(s) to begin the contra flow manoeuvre:
 - Pilot vehicle 1 shall travel to the northern end of town prior to the bp Service Station and stop southbound traffic. The Pilot shall use UHF Channel 40 to advise oncoming traffic of the road closure. The Pilot shall advise the MRWA Traffic Warden of the details of the last vehicle travelling southbound once in position;
 - Pilot vehicle 2 shall travel to the Padbury Street (Location 1) intersection and stop traffic turning southbound out of Padbury Street;
 - The MRWA Traffic Warden shall travel to the Withnell Street intersection and stop traffic turning southbound out of Withnell Street.
6. Once the MRWA Traffic Warden has confirmed the route is clear the contra flos movement shall begin, with the Traffic Warden vehicle proceeding in front of the Oversize vehicle(s).
7. Once the MRWA Traffic Warden has arrived at Padbury Street then Pilot vehicle 2 shall proceed to Location 2 and stop traffic turning southbound out of Wellard Street.
8. Once the MRWA Traffic Warden has arrived at Wellard Street then Pilot vehicle 2 shall proceed to Location 3 and stop northbound traffic.
9. Once the Oversize vehicle(s) clear the contra flow route and return to the natural lane the Pilot vehicles can release traffic and continue with duties as required.
