

Works Notice

Causeway Pedestrian and Cyclist Bridges Project

Path detour change at Point Fraser

As construction continues for the Causeway Pedestrian and Cyclist Bridges Project, a new path detour will occur at Point Fraser. A section of the shared path, adjacent to the river, will be closed until late 2024, to facilitate safe marine works including access into the river for construction.

The existing path detour, implemented along the northern side of Riverside Drive in January 2024, will remain in place with temporary traffic management and controls. Path users will continue to be given priority to cross the closed section of Riverside Drive, which is currently open to construction traffic only.

Path users accessing these areas are advised to take extra care and follow signage. We thank you for your patience and apologise in advance for any inconvenience.

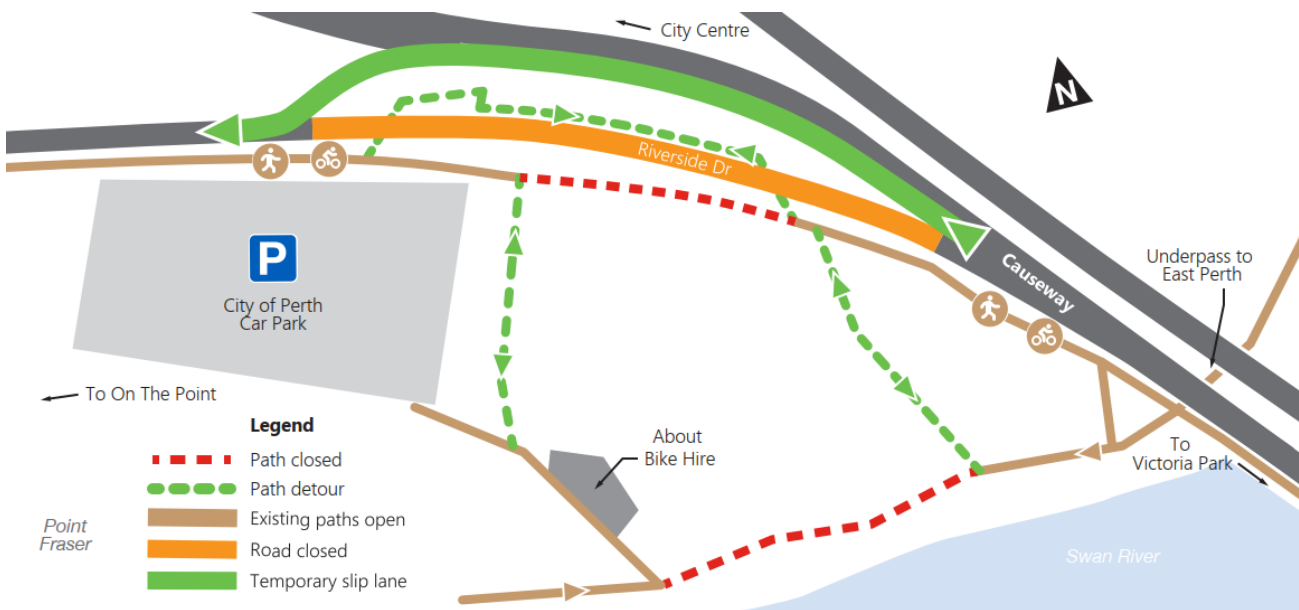

Figure 1 Path detours at Point Fraser – Effective mid-February 2024 until late 2024
