Environmental Policy

We are committed to protecting and enhancing the natural environmental and social values in all of our activities

Intent

All Main Roads staff and others working on Main Roads' behalf will:

- Recognise the importance of the natural environmental and social values and the broader benefits that these values provide to the community
- Foster strategic relationships with community and other stakeholders to contribute to the management of environmental values
- Facilitate environmental governance of our activities to deliver broad community benefit through the inclusion of environmental requirements in planning, programming, construction and maintenance processes
- Communicate this policy and our environmental performance publicly

Objectives

To ensure we achieve this policy our objectives are to:

- Deliver our services in full compliance with the obligations of environmental legislation and policy as a minimum standard
- Manage the environmental impacts of our activities through the hierarchy of 'avoid, minimise, rehabilitate and offset'
- Contribute to a sustainable transport system through the delivery of products and services that minimise environmental impacts, conserve natural resources and also achieve positive social and economic outcomes
- Implement, maintain and continually improve an effective environmental management system compliant with ISO 14001:2015 across Main Roads activities
