State Road Traffic Management Company Registration Scheme

Section 5 – Industrial Relations:

NOTE: Local Government are exempt from Section 5

In relation to Industrial Relations, applicants must provide sufficient information for Main Roads Western Australia to verify compliance with the Conditions of Registration¹.

ALL industrial relations agreements currently in use in your company must be uploaded here.

In the case that your company employs under a different industrial award, agreement etc., you **MUST** demonstrate how these arrangements meet or exceed the same or similar provisions under the *Building and Construction General On-site Award 2020 (BCGOA)*.

The Registered Company agrees that where information obtained during an audit relates to the non-compliance of an industrial award, agreement, payroll requirement, etc., Main Roads Western Australia may refer this matter to an appropriate authority having an oversight role with respect to employment, payroll tax, industrial relations or government procurement matters. The Convenor will be entitled to the traffic management plan from the company, including traffic guidance schemes, daily diaries, payroll records, or any other document that may assist in determining the matters under investigation. The review panel members will be entitled to visit the sites as required. The review panel will be entitled to speak to the relevant workers.

I Agree

The registered company agrees to comply fully with the minimum pay requirements outlined in *Section 11 (Minimum Pay) of the State Road Traffic Management Company Registration Scheme- Conditions of Registration*.

I Agree

Industrial Relations

Please provide comments relating to your industrial relations and attach relevant documents

¹ *The Registered Company will at all times provide access to, assist and comply with the requirements of the auditor. This includes providing copies of documents, details of staff involved in the Work (including relevant accreditations held and applicable salaries, wages and allowances for the days of the audit), and facilitating direct communication with employees, etc. for the purposes of checking compliance with the Conditions.*

Section 6 - Scope of Registration, Organisational Focus, Location of Services:

Scope of registration being applied for:

F – Full Registration – No restrictions – State-wide Implementation – 3 year duration

C – Conditional Registration – Limited to non-complex works or other conditions imposed in accordance with the Conditions of Registration – 1 year duration

Commitment to Excellence, Innovation and Pro-active Monitoring

Main Roads Western Australia expects registered traffic management companies to comply with all relevant statutory obligations and have appropriate site checking/monitoring activities in place to ensure high quality and safety outcomes. Registered companies are encouraged to focus on innovation and be committed to improvement and be proactive in the industry to improve traffic management practices and professionalism. Registered companies must regularly check sites to ensure that only products and devices that comply with relevant standards and guidelines are used.

Does your organisation ensure that staff involved in managing or performing traffic management functions (including all casual and permanently employed accredited traffic controllers) are operating competently, professionally and consistently in accordance with all relevant statutory requirements, standards and the industry code of practice?

No

Yes

The following are applicable to traffic management service providers (this list is not exhaustive).

- *Fair Work Act 2009* (Commonwealth Legislation)
- State Road Traffic Management Company Registration Scheme – Conditions of Registration
- *Traffic Management for Works on Roads Code of Practice.*
- *Traffic Management for Events Code of Practice.*
- *Traffic Controller's Handbook, Guidelines on the Provisions for all Path Users at Roadwork Sites in Built up Areas.*
- *Requirements for the use of Truck Mounted Attenuators in WA – Code of Practice.*
- *Australian Standard 1742.3.*
- *Austrroads Guide to Temporary Traffic Management (AGTTM).*

Does your organisation undertake regular site monitoring activities and inspections to ensure that a high level of compliance for traffic control operations and devices/products is being achieved at all sites you manage or operate at?

No

Yes

Over the past 3 years, has your organisation been involved in trialling new or innovative traffic control products aimed at improving safety/efficiency outcomes?

No

Yes ► Please elaborate with details of industry initiatives or products that your organisation has been involved in and the outcomes of any trials undertaken.

Does your organisation actively participate in industry professional development activities (such as pro-active involvement/membership with an industry association/group, or working in partnership with other industry organisations) to achieve improved quality and safety outcomes?

No

Yes ► Please elaborate with details of industry associations/groups.

Does your organisation model good traffic control practices to industry newcomers by participating in traffic controller trainee mentoring programs at your road worksites?

No

Yes ►

Please elaborate with details.

Does your organisation participate in site staff alcohol/drug testing programs at your roadwork sites?

No

Yes ►

Please elaborate with details of the type of program and frequency of checks.

Please identify location of additional offices and depots used by the organisation for traffic management purposes.

Address	Office/Depot	Contact Name	Contact Number

Applicants must nominate in the application an authorised person as a single point of contact for the registration process. The authorised person must be capable of acting on behalf of the Applicant including to provide all information. Main Roads Western Australia will not liaise with anyone who is not authorised to act for the Applicant.

Section 7 - Summary of Current and Previous Works:

This form requires details of experience in previous works including:

- List **ten projects** relevant to the registration from the last three years (or further back if considered necessary to support the application).
- For **five of the larger projects**, include the name and contact details for a senior company representative of the client who may be contacted as a referee. If you have evidence of this referee, please attach this to the application.
- Whether applying for FULL registration (F) or CONDITIONAL Registration (C), you must provide an example of site specific **TMP's** of each of your **five larger projects** as part of your previous experience. Please attach the TMP's to the application, which would include:
 - Lane closure
 - Aftercare scenario
 - Path user management plan
 - Reverse flow plan involving end of queue protection
 - Long term works (site specific project greater than 14 days duration)

***Note:** Companies may submit five Complex Traffic Management Plans in lieu of the above stated scenarios
